

Attribute	Value
Type	Broadleaf
Height	Can reach up to 100 ft
Age	Several centuries possible
Leaf Color	Green in Summer, Yellow/Brown in Autumn

Once upon a time, in a lush meadow bordered by the whispering woods, stood a magnificent oak tree. This grand oak was known by all as Eldenroot, a sentinel that had watched over the land for countless generations. Eldenroot's branches stretched out like the arms of a wise elder, offering shade to travelers and a home to the creatures of the forest. Its leaves, a vibrant green throughout the warm months, turned into a fiery tapestry of reds, oranges, and yellows with the arrival of autumn. Legends spoke of its mystical beginnings, planted by nature spirits on a night when the moon shone brightest. Eldenroot was not just a tree; it was a timeless guardian, a keeper of secrets, and a symbol of the enduring beauty of nature.
